

CITY OF COLUMBUS NEIGHBORHOOD FLOODING QUESTIONNAIRE

If you believe your Columbus neighborhood has a stormwater drainage issue that needs to be addressed from an infrastructure or Capital Improvement Project standpoint, please complete the following survey for the Division of Sewerage and Drainage to review and investigate.

1. Name _____ Home Phone _____
Street Address _____ Daytime Phone _____

2. How long have you lived at this address? _____ (years)

3. Describe any street flooding you are experiencing.

Indicate the locations of regular flooding using the attached sketch. (Feel free to include any pictures or video as well.)

- Date of last occurrence: _____
- How deep does the water get during each occurrence? _____
- How often does this problem occur in a typical year? _____
- How long has the problem existed, to your knowledge? (check one)
___ Less than 1 year ___ 1-5 years ___ 5-10 years ___ 10-20 years ___ Over 20 years
- Has this flooding resulted in any damages? ___ Yes ___ No
If yes, describe: _____

4. Describe any yard flooding you are experiencing.

Indicate the locations of regular flooding using the attached sketch. (Feel free to include any pictures or video as well.)

- Date of last occurrence: _____
- How deep does the water get during each occurrence? _____
- How often does this problem occur in a typical year? _____
- How long has the problem existed, to your knowledge? (check one)
___ Less than 1 year ___ 1-5 years ___ 5-10 years ___ 10-20 years ___ Over 20 years
- Type of flooding: (check one)
___ Flowing water that occurs during a storm, which is usually gone within one day after the rain event. If longer, how long? _____
___ Pockets of standing water or soggy yard due to yard grading issues, which is usually gone 1-2 days after the rain event. If longer, how long? _____
___ Yard flooding due to a stream, ditch, or storm sewer outlet.
___ Other – please describe: _____
- Has this flooding resulted in any damages? ___ Yes ___ No
If yes, describe: _____

5. When was the worst flooding event in the last 10 years that you recall?

Please be as descriptive as possible (i.e. date, depth of flooding, intensity of storm, etc.)

Thank you for your input. Public input is used to help identify infrastructure and rehabilitation needs and to help prioritize Capital Improvement Projects in the City of Columbus. Please send your completed survey (via fax, E-mail, or standard mail) to:

Mark Timbrook, P.E.
Sewer Systems Engineering Section
1250 Fairwood Avenue
Columbus, Ohio 43206

For any questions regarding this survey, or to provide any additional comments, call:
